

Our entire family benefits from the ability to listen to K-Love radio (88.1). As it is there are times it goes off the air and we truly miss the uplifting messages they offer. I never have to wonder what my children are listening to. I understand that there is governmental action which may affect our ability to continue listening to K-Love. We ask you to reconsider the LPFM changes that would expand and give priority to new LPFM stations.

K-Love offers a tremendous service to our community and would be sorely missed. The Hood family
